**Art.4 Permanent derogations**

Permanent derogations, which are not subject to special authorisation, are granted for the following transport operations:

1. vehicles transporting, to the exclusion of all else, live animals or perishable goods or foodstuffs, provided that the quantity of goods constitutes at least half of the truck's payload or occupies at least half of the loading surface or volume of the vehicle. In the case of multiple deliveries, these minimum loading conditions no longer apply beyond the first point of delivery provided that further deliveries occur within a zone restricted to the region of origin of the first delivery point and the neighbouring departments or the region of origin of the first delivery point and adjacent regions within a distance of 150 kilometres.

The vehicles concerned are not subject to minimum load conditions and may travel empty if their movements consist of loading operations restricted to a zone consisting of the region of origin and its neighbouring departments or the region of origin and adjacent regions within a distance of 150 kilometres.

Vehicles transporting racehorses are not subject to minimum load conditions.

Vehicles which have been used to transport homing pigeons are authorised to travel empty throughout the road network.

Are considered perishable goods and products : eggs; live fish, crustaceans and shellfish; foodstuffs requiring refrigeration; frozen and deep-frozen foodstuffs, in particular meat products, seafood, milk and dairy products, egg-based products, yeast and vegetable products including refrigerated fruit juices and ready-to-use chopped raw vegetables; all foodstuffs which must be kept warm; fresh fruit and vegetables, including potatoes, onions and garlic; cut flowers, and potted plants and flowers; honey; animal carcasses.

- 2a. Vehicles engaged in the seasonal collection and transport of agricultural produce from the place of harvesting to the place of storage, processing, packaging or transformation, within an area made up of the region of origin and the neighbouring departments or the region of origin and adjacent regions within a distance of 150 kilometres.
- 2b. Vehicles engaged in the seasonal transport of beet pulp from the processing plant to the place of storage or use. These vehicles may not use the motorway network.
- 3a. Vehicles whose load is indispensable for the installation of economic, sporting, cultural, educational or political events which have been duly authorised, on condition that the said event is to take place on the same day or, at the latest, on the day following the transport.
- 3b. Vehicles transporting fireworks, the use of which has been duly authorised for the same day or the following day.

- 3c. Vehicles transporting hydrocarbon gas mixture, liquefied, NOS, UN1965, or petroleum products, UN 1202, 1203, 1223, necessary for duly authorised sporting competitions, on condition that the event justifying the transport operation is to be held on the same day as or, at the latest, the day after the transport operation.
4. Vehicles transporting newspapers and magazines only.
5. Vehicles carrying out office or factory removals in an urban area.
6. Vehicles specially equipped for the itinerant sale of the goods transported, within an area made up of the region of origin and the neighbouring departments or the region of origin and adjacent regions within a distance of 150 kilometres.
7. Vehicles belonging to tradesmen and which are used for the sale of their produce at fairs or markets within an area made up of the region of origin and the neighbouring departments or of the region of origin and adjacent regions within a distance of 150 kilometres.
8. Vehicles used for the transport of air freight, under cover of an air waybill.
9. Vehicles used for the transport of hospital waste or goods necessary for the operation of medical establishments.
10. Vehicles transporting medical gases.
11. Vehicles transporting industrial gamma radiography equipment.

For all vehicles benefiting from a permanent derogation, empty return is authorised within a zone restricted to the region of the last delivery point and the neighbouring departments or the region of the last delivery point and adjacent regions within a distance of 150 kilometres.

The vehicles mentioned under points 3, 6 and 7 may travel laden at the end of the event or the sale, within a zone restricted to the region of the place where the event or sale took place and its neighbouring departments or the region of the place where the event or sale took place and adjacent regions within a distance of 150 kilometres.

Unless other provisions apply, for the purposes of implementation of the provisions of this article, the region of origin is the region of departure of the vehicle (or of entry into France) for the transport operation concerned.

#### **Art.5 Short-term derogations**

Derogations to the driving restrictions laid down in articles 1 and 2 above, so-called short-term prefectural derogations, may be granted for

1. vehicles performing a transport operation considered as indispensable and urgent, namely those engaged in a goods transport operation to meet the needs caused by exceptional circumstances such as drought, flooding, or natural or humanitarian catastrophe;
2. vehicles engaged in waste transport for the clearing of rubbish dumps or slaughterhouses;
3. vehicles used to supply clean laundry to and remove dirty laundry from hotel complexes of a combined capacity of 1000 rooms and more;
4. tanker vehicles used for the supply of
  - service stations situated along motorways;
  - airports with aviation fuel.
5. vehicles transporting dangerous goods destined for urgent loading or resulting from urgent unloading in maritime ports.

The corresponding authorisations are issued by the Prefect of the department of departure for a period not exceeding the duration of the prohibition for which the derogations are requested. For transport operations originating outside France, the authorisation is issued by the Prefect of the department of entry into France.

## **Art.6 Long-term derogations**

Derogations to the driving restrictions laid down in articles 1 and 2 above, so-called long-term prefectural derogations, may be granted for

1. vehicles necessary to ensure the round-the-clock operation of certain production services or units. If dangerous goods transport is involved, these authorisations can only be issued subject to the approval of the interministerial committee on the transport of dangerous goods.
2. vehicles contributing to the provision of public services or emergency services to meet immediate collective needs.

Authorisations for the transport operations indicated in point 1 are issued by the Prefect of the department of loading (or of entry into France) subject to the approval of the Prefect of the department of destination (or of exit from France).

Authorisations for the transport operations indicated in point 2 are issued by the Prefect of the department of departure.

Long-term authorisations are issued for a maximum of one year.

## **Art.7 Lifting of restrictions - border zones**

In order to mitigate the consequences of the lack of harmonisation of traffic bans with those of neighbouring states, the Prefects of border departments have the possibility of granting derogations to the driving restrictions foreseen in articles 1 and 2 above.

## **Art.8 Lifting of restrictions - exceptional circumstances**

In the case of exceptional circumstances, if the vehicles mentioned in article 1 have been immobilised during the 12 hours preceding the beginning of a period of restriction foreseen in articles 1, 2 or 3 above, the departmental Prefects may, in coordination with the Prefects of the neighbouring departments, authorise them to travel during all or part of the period of restriction within a specific zone.

## **Art.9 Conditions of use of derogations**

For any vehicle granted a permanent derogation or a short or long-term individual prefectural derogation, the person in charge of the vehicle must be able to prove to the officers responsible for road traffic checks that the transport operation complies with the provisions of the derogation concerned.

The authorisation must be kept on board the vehicle. For it to be valid, it must be completed by the holder prior to the vehicle's departure, indicating the date of the transport operation and the vehicle's registration number.

An authorisation may be withdrawn by the issuing authority if the holder does not observe its terms of use or has provided erroneous information in order to obtain it.

If the tractor element of a combined vehicle is driven without the semi-trailer, the weight limit given above applies to the tractor only; if the tractor is not designed to be loaded, the tare weight is that which applies.

For vehicles arriving from another country or from Sardinia carrying documentation certifying the origin of the consignment, the beginning of the ban is postponed by four hours. In the case of a vehicle arriving from abroad with only one driver whose daily rest period, as laid down in regulation CE 561/2006, coincides with this four hour period, the four hour postponement period will begin at the end of the rest period.

For vehicles travelling to another country, carrying documentation certifying the destination of the consignment, the end of the ban is brought forward by two hours. For vehicles travelling to Sardinia, carrying documentation certifying the destination of the consignment, the end of the ban is brought forward by four hours.

The end of the ban is brought forward by four hours for vehicles heading for the national interports (Bologna, Padua, Verona Quadrante Europe, Turin-Orbassano, Rivalta Scrivia, Trento, Novara, Domodossola and Parma-Fontevivo), intermodal terminals (Busto Arsizio, Milan-Rogoredo and Milan-smistamento) or an airport for the execution of an air freight transport operation, and which are transporting goods destined for export. It applies also to vehicles carrying empty loading units

(containers, swap bodies, semi-trailers) destined for export via the same interports, intermodal terminals or airports, as well as those to be loaded on to trains provided they carry the relevant documentation (shipment orders) certifying the destination of the goods. The same provisions apply to vehicles involved in combined rail-road or sea-road transport provided they carry the relevant documentation certifying the destination of the consignment as well as confirmation of booking or a ticket for the voyage.

For vehicles travelling in Sardinia which have arrived from another region of the national territory and which are carrying documentation certifying the origin of the consignment, the beginning of the ban is delayed by four hours. In order to encourage intermodal transport, the same derogation applies to vehicles travelling in Sicily, which have arrived by ferry from another region of the national territory, with the exception of those arriving from Calabria, provided they carry the relevant documentation certifying the origin of the consignment.

Driving restrictions are not applied to vehicles in Sardinia which are travelling direct to a port for embarkation on a ferry heading for another region of the national territory, provided they are carrying the relevant documentation certifying the destination of the consignment as well as confirmation of booking or a ticket for the ferry. The same derogation applies to vehicles in Sicily which are travelling direct by ferry to another region of the national territory, with the exception of Calabria.

To take account of the traffic problems caused by the upgrading of the Salerno-Reggio Calabria motorway and the difficulties related to ferry operations to and from Calabria, and with the exception of the cases indicated in the two preceding paragraphs, the beginning and the end of the ban are delayed and brought forward respectively by two hours for vehicles arriving from or going to Sicily, provided the drivers are carrying documentation certifying the origin or the destination of the consignment.

With respect to the above regulations, it should be noted that vehicles arriving from or going to the Republic of San Marino or Vatican City are considered to be vehicles arriving from or going to regions within the national territory.

### **Exceptions:**

- public service vehicles used in cases of emergency or vehicles transporting material needed for emergency use (fire brigade, civil protection etc.);
- military, Italian Red Cross and police vehicles;
- vehicles belonging to companies owning roads or having concessions thereon and having urgent reasons for such transport;
- municipal utility vehicles bearing the words "Municipal Highways Department";
- vehicles of the Ministry of Post and Telecommunications, bearing the sign "PT" or "Poste Italiane";
- radio/television vehicles used for urgent services;
- vehicles transporting fuel for distribution and consumption;
- vehicles transporting animals for authorised competitions which will take place within the next 48 hours or which took place within the previous 48 hours;
- vehicles transporting foodstuffs for the supply of aircraft, or those transporting engines and spare parts for aircraft;
- vehicles transporting foodstuffs for the supply of the merchant navy, and which are covered by the appropriate documentation;
- vehicles transporting only newspapers and periodicals;
- vehicles transporting only products for medical use;
- vehicles transporting only milk (with the exception of long conservation milk). These vehicles must be equipped with green panels 50cm wide and 40cm high, with a small letter "d" printed in black and measuring 20cm in height, affixed in a visible manner on both sides and at the rear;
- agricultural vehicles used for goods transport, travelling on roads which are not part of the national road network;
- tankers transporting water for domestic use;
- vehicles used to clean septic tanks and drains;

- vehicles transporting perishable foodstuffs under the ATP regime;
- vehicles transporting perishable goods such as fresh fruit and vegetables, fresh meat and fish, cut flowers, live animals destined for slaughter or arriving from abroad, as well as sub-products following the slaughter of animals, chickens for rearing, fresh dairy produce, fresh milk derivatives and semen. These vehicles must be equipped with green panels 50cm wide and 40cm high, with a small letter "d" printed in black and measuring 20cm in height, affixed in a visible manner on both sides and at the rear;
- vehicles returning to the company headquarters provided they are at a distance of no more than 50 km from the headquarters when the driving ban begins and that they do not travel on the motorway network.

The following vehicles are also excluded provided they have an authorisation delivered by the Prefect:

- vehicles transporting goods which, due to their nature or to climatic or seasonal factors, are susceptible to rapid deterioration and must be transported rapidly from the place of production to the place of storage or sale, and vehicles used to transport animal feedstuff;
- vehicles transporting goods in cases of absolute necessity or emergency in relation to round-the-clock work;
- agricultural vehicles used for goods transport, travelling on the national road network.

The first two categories of vehicle must be equipped with green panels 50cm wide and 40cm high, with a small letter "a" printed in black and measuring 20cm in height, affixed in a visible manner on both sides and at the rear.

Prefects may also deliver a temporary authorisation, valid not more than four months, to vehicles supplying fairs, markets or cultural events.

### ***Applications for derogation***

Application for derogation must be submitted in good time (at least 10 days in advance) to the prefecture of the province of departure. The prefecture may, after checking the validity and the urgency of the reasons given in relation to local and general road conditions, issue an authorisation showing: the period of validity (which must not exceed six months); the vehicle's registration number; the points of departure and arrival; the route to be followed; the material transported.

For foreign vehicles, applications for exemptions must be addressed by either the supplier or the consignee of the goods to the prefecture of the province of the point of entry into Italy. Prefects must take into consideration, besides reasons of urgency and the perishable nature of the goods, the distance to the final destination, the type of journey and the location of the relevant services at the border. By analogy, for vehicles coming from or heading for Sicily, prefects must take into consideration the difficulties arising from the specific geographical situation of Sicily and, in particular, the time necessary for the ferry crossing.

During periods of driving prohibition, the prefectures on whose territory the customs posts are situated, may authorise, as a permanent measure, vehicles arriving from abroad to drive as far as the parking areas (autoports) situated near the borders.

### **Transport of dangerous goods**

***Vehicles concerned*** vehicles transporting dangerous goods of Class 1, regardless of the weight of the vehicle

***Area*** nationwide

***Prohibition*** in addition to the dates indicated above, weekends between 1 June and 19 September, from Friday 18h00 to Sunday 24h00

***Exceptions*** Derogations may be granted on motives of absolute necessity or emergency, for work of national importance which renders round-the-clock work indispensable even on public holidays. The authorisation will

be restricted to roads with a low volume of traffic and to the communes adjacent to the work site in question. In all cases, on those days on which tourist traffic is at a maximum in the region concerned, no derogations will be granted.

- Removal of waste;
- Urgent removal of animal carcasses or animal waste subject to the written approval of the veterinary authorities;
- Transport of mobile disinfection units for hospital use.

## **Points to note**

Before the beginning of the restriction, drivers must immobilise their vehicles in suitable parking places at the roadside.

During the period of the restriction, foreign-registered vehicles of over 7.5t GVW or over 14m in length may not enter Slovenia, but should use the parking areas in the border zone.

In winter conditions, it is forbidden to drive combination vehicles, vehicles transporting dangerous goods, as well as exceptional loads. Even if these vehicles have the compulsory winter equipment, entry into Slovenia is not permitted while winter conditions prevail. This does not apply to vehicles

registered in Slovenia if there is a suitable parking place at the border crossing allowing these vehicles to be removed from the traffic. It is the driver's responsibility to stop at the first suitable off-road parking area until the roads have been cleared.

In the case of high winds, trucks, combination vehicles, buses and coaches are prohibited on certain road sections. These restrictions are signposted.

In certain circumstances short-term permits are available at short notice for single journeys. Operators should note, however, that permit conditions impose special routing requirements on drivers. For more detailed information, operators should contact the above office.

### Local restrictions

Outside of London there are numerous other restrictions for heavy goods vehicles both in town centres and rural areas of outstanding natural beauty. Drivers should follow the special signs guiding them through or around areas where restrictions are in place.
